

Tell Minnesota Gov. Walz: Drop the Charges Against Water Protectors!

Hundreds of water protectors are currently facing criminal charges in Minnesota for standing in defense of the water, the climate, and the treaty rights of the Anishinaabeg people.

Water protectors put their bodies on the line to stop Enbridge's Line 3 pipeline. Police forces – directly funded by Enbridge Corporation – have responded to this movement with surveillance, harassment, and trumped-up charges, including felonies. In this time of climate catastrophe, Governor Walz must listen to water protectors instead of criminalizing and prosecuting them.

Send a letter to Governor Walz today to tell him: Drop The Charges!
