

## **Immigration Policy**

“Major changes are needed to build an immigration system rooted in humanity, hold agencies accountable and to finally turn the page on Trump’s shameful era of immigration policies,” said Sarnata Reynolds, Director of Policy for Immigration Hub. “We welcome the incoming Biden administration’s prioritization of legal status for Dreamers and other long-time residents, the repeal of racist and cruel Trump policies and the implementation of bold actions to scale back immigration enforcement until it can be implemented in a humane and fair manner. The 2021 Action Plan goes further, identifying dozens of other measures required to protect the dignity of immigrants and promote the success of communities. Collectively, they are integral to the Biden administration’s efforts to lead our country towards economic recovery and truly build back better.”
